SKILLS

Programming Languages

Python	Ruby
SQL	C#
Swift	Kotlin
Javascript	C++

Frameworks & Libraries

Ruby on Rails	VueJS
Flask / Django	React

Tools and Technologies

Docker	GitHub
REST APIs	Scrum

EDUCATION

Bachelor of Engineering with Honours in ICT (Software Engineering)

Singapore Institute of Technology

Aug 2022 - Aug 2026

- Major in Software Engineering
- Cumulative GPA: 4.08

Diploma in Information Technology

Ngee Ann Polytechnic

May 2017 - May 2020

CERTIFICATION

Professional Scrum Master™ I

Completed: Sep 2024

LANGUAGES

English

Mandarin

PROFILE

I am a dedicated Software Engineering student at the Singapore Institute of Technology, with hands-on experience in full-stack development and cloud computing. My technical expertise spans multiple programming languages and frameworks, including Python, Ruby on Rails, VueJS, and SQL, and I have contributed to software development lifecycles in various roles. With a passion for building robust and user-friendly software, I am adept at collaborating in multidisciplinary teams to design, develop, and deploy impactful solutions. My commitment to continuous learning, alongside real-world experience in frontend and backend technologies, drives my enthusiasm for solving complex problems and improving digital systems in both public and private sectors. I'm eager to contribute to projects that enhance system reliability and elevate user experiences.

WORK EXPERIENCE

Software Engineer

Payboy   Nov 2022 - Dec 2022

- Contributed to the full Software Engineering lifecycle in the development of a new feature including design, coding, testing. Utilized Ruby on Rails and VueJS to improve user experience and functionality.
- Collaborated with cross-functional teams to ensure seamless integration of new features into existing systems

Software Engineer Intern

Payboy   May 2019 - August 2019

- Developed and implemented new features by contributing to the entire Software Engineering lifecycle, including requirement gathering, design, coding, and testing.
- Engaged with clients to gather and clarify requirements, ensuring alignment with their needs and business objectives.
- Conducted comprehensive user testing to identify and resolve issues early, ensuring new features met user needs.
- Led bug fixing efforts during post-deployment, swiftly addressing critical issues to maintain system stability and performance.
- Assisted in client installations, providing technical support and guidance for smooth deployment and integration of software into client environments.
- Collaborated with stakeholders to ensure project deliverables were aligned with client expectations and company goals.

CO-CURRICULAR

- Participated in Inter-Cluster Games - SIT   Jan 2024 - Mar 2024

- Volunteer at St.Hildas Community Services   May 2018 - Oct 2018

- Value-in-action organizer at Lions Befrienders   Jul 2014 - Dec 2014
